

World Federation of Independent Scouts

Scouts Discover the World 2015

This is a project for Scout patrols all over the World.

Through this Project, Scouts from different areas or countries can learn more about other Scouts who are members of WFIS.

It is very easy to join the project; here is what you have to do:

1. Take a picture of your Scouts and leaders.
2. Fill out the registration form and send it, with the picture of your Scouts and leaders, You have to send this form by e-mail to: scoutsdiscover@wfis-europe.org Natasha Pierard is the Leader of this project and she is your contact if you have any problems or questions about the project. You will get her contact details when you register.
Remember to order Scouts discover the World badges on the registration form. The price for the badges is 1.50 Euro each.

You have to send the registration form before the 31st of March 2015

3. Now your scouts have to find a lot of information about:
 - Maps and information about the city they live in
 - Maps and information about the country they live in
 - The name of the patrol and the history of the patrol
 - One picture of the Scouts and leaders with a WFIS Flag

Put together the following information: a popular dish from the region in which you live, a local Scout song, a local or national dance, a legend or folk tale, a special game and popular handicraft from your country. Write down special Scout words in your own Language and in the language you have to send the first package.

The scouts have to make 2 identical information packages.

4. From the Leader of the project you will get the name and address of a Scout patrol. Send one package to them. Remember to put your name and address in the package.
5. Your Scouts will get 2 packages. One from the group you have sent your first package to, and one from another group. When you get the package from the other group, send them your second package. You have to send the third package to the leader of the project and present your information about the other countries at a special Scout meeting. You have to cook a dish, sing the songs etc. from the countries you get the information from.
6. When you have sent your first package you have to tell the project leader by letter or by e-mail. The leader will, if you have ordered them on the registration form, send you Scouts discover the World badges. All groups who join the project will get a certificate and information about all the patrols that joined the project.
