## **WORKSHOPS**

8 different activities will take place on Saturday morning and afternoon. Main theme will be Italian cooking- we believe it to be an attractive idea for our friends arriving from abroad!

### **CUB ACTIVITIES**

#### 1. FLAVOURS MADE IN ITALY- a sensory experience

Discovery, through tactile impressions of various types of flour and food. Participants will learn to produce some types of homemade pasta and pesto. Afterwards the food will be cooked using scouting techniques!

#### 2. CREATING "POP-UP" CARDS

Realization of various models of pop-up cards starting from the simplest up to the more complex ones, that require more time and greater manual and creative ability. The themes could be Italy, Rome, Scouts and the final result will be a souvenir for those who participate. The techniques used will be paper cutting and drawing.

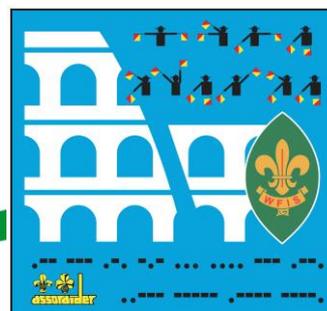

### **SCOUT ACTIVITIES**

#### 3. COOKING FOR SCOUTS

Some typical Italian food will be prepared using scout techniques. Specifically, we will create a stone and mud oven to make mini pizzas and, depending on the possibilities offered by the workshop location, there will be a second cooking technique.

#### 4. TOPOGRAPHIC ACTIVITY

The topographic activity will be carried out together with the Rover's branch. It is about organizing a city tour. We are going to prepare the itinerary of the tour in Rome, using basic topographic techniques. This activity is linked to the later guided city tour, organized as a Rover's activity.

## ROVER ACTIVITIES

5. GUIDED CITY TOUR IN ROME  
Two groups one in the morning and one in the afternoon, with a maximum of about 20 participants per group will visit Rome with a guide.
6. "PIZZA PARTY"  
Participants will follow a tutorial in order to learn about techniques and steps to make pizza.

## RAIDER ACTIVITIES

7. CAMPFIRE  
Creative and interacting workshop based on the classic campfire activities: singing, acting, performing mimics or bans, but also scenic preparation and planning of the campfire itself.
8. PLAY THE GAME/SCAUT OLYMPICS  
Participants will be divided into different teams according to the games. They will play the most classic scout games, requiring many abilities such as: precision, coordination, balance and so on.

**The activities are for groups of maximum 20-25 participants. You may choose 4 of them, indicating a preference order and 2 alternative activities, in case one or two of the first chosen are already full booked!**

## General planning

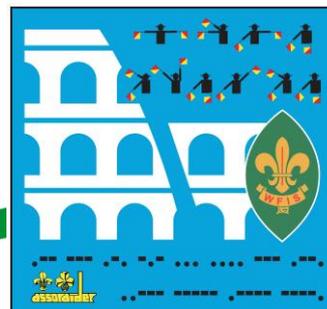

Friday 01 November	3.30 pm – 7.00 pm	Reception
Saturday 02 November	09.00 am -12.30	Activities
	2.30 pm – 6.00 pm	Activities
Sunday 03 November	09.30 am-12.30	Scout market and farewell

The final timetable for the workshops on Saturday will be communicated on site, according to the effective number of participants.

We decided for a location nearby Rome in order to offer the opportunity to visit our beautiful Capital, choosing the city tour as one of your activities. There are 2 workshops linked to the visit in Rome (TOPOGRAPHIC ACTIVITY and GUIDED CITY TOUR), so if you are interested we suggest to choose both, but obviously this is up to you!

**Saturday evening**, after dinner there will be the occasion to stay together and have some fun singing and sharing campfire activities.

**Sunday morning** after the closing ceremony and the group photo, there will be time for badge exchanging and scout market. So if you need a table for your items, please let us know in advance!
